This is an annual charity run to support the families of those firefighters that we have lost in the line of duty. The Texas Line of Duty Death Taskforce is a volunteer organization. We are honored to help provide support to those that support our families in their time of need. For more information see the website below.

## History

In 1983, professional firefighters representing cities all across Texas began participating in various sporting events against other Texas Fire Departments. The Texas Firefighter Games was born and is now held annually in a "Host City" (rotating to a different "Host City" every year). The Games are held starting the third Sunday of July each year and end on Friday of that week.

Firefighter athletes and their families attend the week-long event each year.

If you are a professional paid firefighter (sorry but no Volunteer Firefighters) in Texas, New Mexico, Oklahoma, Louisiana, and Arkansas, we invite you to join the spirit of competitive fun and sign up for the next running of the Texas Firefighter Games!

## Mission

To deliver competitive sporting events for participants and a family atmosphere while giving back to the community through various charitable organizations

## Vision

The vision of the Texas Firefighter Games Board is to provide a family oriented environment to showcase health and fitness, camaraderie, sportsmanship, and the sharing of ideas among firefighters from across Texas and the surrounding states on a yearly basis. To continue to give back to each host city through contributions to local charity organizations.

## Charities Supported by your participation

4th charity supported is chosen by the local IAFF chapter for the city hosting
